

## TECHNICAL SKILLS

---

**Strong:** JavaScript, jQuery, React, Bootstrap, RESTful APIs, Object Oriented Programming, HTML, CSS

**Experienced:** Node, Express, PostgreSQL, MySQL, Webpack, TypeScript, AWS

**Tools:** Git, DB Designer, Nginx, Babel, Webpack, Ubuntu, Docker, Photoshop

## APPLICATIONS

---

### Off-White E-commerce Store [Live](#) / [GitHub](#)

*An E-commerce web app focused on purchasing sneakers built using React, Bootstrap, Node, Express, and PostgreSQL*

- Created **API** requests to custom **Node** endpoints to retrieve **JSON** data from **PostgreSQL** database via **Fetch**
- Designed a dynamic and responsive, mobile-friendly, layout using **React** components, **Bootstrap**, and **Media Queries**
- Executed **Agile Methodology** by managing tasks and development process with **MeisterTask** tracking software

### Super Cars [Live](#) / [GitHub](#)

*A car rental mobile app built using React, React Router, Bootstrap, Node, Express, Bcrypt, and PostgreSQL*

- Constructed the backend using **Node**, **Express**, and **PostgreSQL** to store user profiles, reservations, and past rentals
- Designed the Navbar login authentication page utilizing **React** and **regex** implemented with **Bcrypt** to hash passwords
- Structured app layout using **Bootstrap** and **Media Queries** for a mobile responsive design
- Operated with team using **Meistertask** and **Db Designer** to track and maintain **Agile Methodology**

## VOLUNTEER EXPERIENCE

---

### Front-End Developer | *Reach4Help* | [GitHub](#)

2020 - Present

*An open source project built using TypeScript that enables users to create mutual help networks in their local communities*

- Analyzed and resolved a map UI issue that fixed the responsiveness on mobile devices in portrait mode

### Front-End Developer | *PEESE-COVID19* | [GitHub](#)

2020 - Present

*An open source project that creates a dynamic map and trends dashboard webpage of NY state COVID-19 cases by county*

- Actively participating in online team meetings as we are still in the early development stages discussing and finalizing which technologies to use and the overall UX/UI design of the page.

## PROFESSIONAL EXPERIENCE

---

### Real Estate Assistant | *New Star Realty*

2018 - 2019

- Analyzed, prepared, and modified documents including drafts, reports, memos, and emails where I executed assigned tasks on a timely matter to promote an overall efficient work environment
- Advised agents with marketing strategies and created ads using Microsoft Word and Photoshop to attract clients

### Dental Assistant | *M-Dental Group*

2017

- Provided chair-side assistance, prepared instrument trays prior to dental procedures, sterilized instruments, and assisted scheduling patients using Dentrix, a software management system, to maximize work efficiency
- Applied knowledge and instructed patients on the importance of postoperative and general oral health care

## EDUCATION

---

**University Of California, Riverside** | *Bachelor of Science, Biology*

**LearningFuze** | *Accelerated Web Development Program*
