TECHNICAL SKILLS

Strong: JavaScript (ES5, ES6), React.js, jQuery, Bootstrap, OOP, RESTful API's (AJAX, Fetch), HTML5, CSS3
Experienced: Node.js, Express, PostgreSQL, Webpack, Flexbox**,** UX/UI Design
Tools: Git, GitHub, Meistertask, Trello, Figma, DB Designer, Chrome Dev Tools, React Dev Tool, AWS (EC2), Postman, npm, JSON, Nginx, Babel, Ubuntu, VS Code, Docker, Command Line Terminal, Photoshop, Agile Methodology

SOFTWARE PROJECTS

Off-White E-commerce Store   Live / GitHub
- Built a full stack **Content Management System (CMS)** web app that communicates with the backend via **Fetch API**, allowing users to successfully create, read, update, and delete **(CRUD)** rare Off-White shoes
- Established a backend server using **PostgreSQL** to create a dynamic database that utilizes the **Express** framework coupled with **NodeJS** to connect the backend with the frontend via server endpoints
- Constructed front-end functionality using **ReactJS**, **JSX**, **Bootstrap,** and **Media Queries** create an overall accessible and mobile-friendly **UX/UI** design, allowing users the ability to navigate throughout the site efficiently

Super Cars Live / GitHub
- Built a mobile, full stack app in **ReactJS** for users who want to rent and experience driving luxury sport cars
- Performed the role of a Full-Stack Developer and delegated tasks to team members utilizing **Meistertask**
- Constructed a backend database by using **PostgreSQL** and **NodeJS** to store user profiles, reservations, and past rentals
- Structured app layout using **ReactJS**, **JSX**, and **Bootstrap** for a mobile responsive **UX/UI** design
- Operated with team using **Meistertask**, **Figma**, **DB Designer**, and **Slack** to arrange an organized course of action, following **Agile Development Processes** by communicating via daily stand-ups to simulate a real work environment

Lakers Memory Match Live / GitHub
- Designed a fully functional NBA Lakers-themed card matching game with live statistics tracking and animations
- Utilized **JavaScript** and **jQuery** to manipulate **DOM** elements, render cards dynamically, and add card matching logic
- Implemented responsiveness by using **CSS3**, **Flexbox**, and **Media Queries** to scale the game to proper screen sizes

PROFESSIONAL EXPERIENCE

Real Estate Assistant | *New Star Realty*   2018 - 2019
- Analyzed, prepared, and modified documents including drafts, reports, memos, and emails where I executed assigned tasks on a timely matter to promote an overall efficient work environment
- Advised agents with marketing strategies and created ads using Microsoft Word and Photoshop to attract clients

Dental Assistant | *M-Dental Group*   2017
- Provided chair-side assistance to dentist and assisted scheduling patients using Dentrix, a software management system
- Prepared instrument trays prior to dental procedures, sterilized instruments, and assisted with laboratory duties between seeing patients to maximize work efficiency and to reduce waiting time for scheduled patients
- Applied knowledge and instructed patients on the importance of postoperative and general oral health care

EDUCATION

University Of California, Riverside | *Bachelor of Science, Biology*

LearningFuze | *Accelerated Web Development Program*
800+ hours of daily programming in a simulated work environment under the guidance of senior developers
