TECHNICAL SKILLS

Front End: HTML5, CSS3, JavaScript (ES 5/6), ReactJS, jQuery, Bootstrap, Flexbox, AJAX, JSON, Fetch, OOP
Back End: NodeJS, Express, PostgreSQL
Other: Git, GitHub, Meistertask, Figma, DB Designer, Chrome Dev Tools, React Dev Tool, Postman, AWS (EC2), UX/UI Design, Visual Studio Code, npm, Webpack

DEVELOPMENT EXPERIENCE

Off-White E-commerce Store Live / GitHub
- A full stack **Content Management System (CMS)** web app that communicates with the backend using **Fetch API**, allowing users to create, read, update, and delete **(CRUD)** rare Off-White shoes
- Developed a backend server using **PostgreSQL** to create a dynamic database that utilizes the **Express** framework coupled with **NodeJS** to connect the backend with the frontend via server endpoints
- Constructed front-end functionality using **ReactJS**, **JSX**, **Bootstrap,** and **media queries** to create an overall accessible and mobile-friendly **UX/UI** design, allowing users the ability to navigate throughout the site efficiently

Super Cars Live / GitHub
- A full stack app, built with a team of four, designed for users who want to rent and experience driving luxury sport cars
- Constructed a backend database to store user profiles, reservations, past rentals utilizing **PostgreSQL** and **NodeJS**
- Planned with team using **Meistertask**, **Figma**, **DB Designer**, and **Slack** to arrange an organized course of action, following **Agile development processes** by communicating via daily standup to improve overall efficiency
- Structured app layout using **ReactJS**, **JSX**, and **Bootstrap** for a mobile responsive **UX/UI** design

Lakers Memory Match Live / GitHub
- Designed a NBA Lakers-themed card matching game with live statistics tracking, animations, and GIFs
- Utilized **JavaScript** and **jQuery** to manipulate **DOM** elements, render cards dynamically, and add card matching logic
- Implemented responsiveness using **CSS3**, **Flexbox**, and **media queries** to scale the game to proper screen sizes

PROFESSIONAL EXPERIENCE

Real Estate Assistant | *New Star Realty*   2018 - 2019
- Analyzed, prepared, and modified documents including drafts, reports, memos, and emails where I executed assigned tasks on a timely matter to promote an overall efficient work environment
- Advised agents with marketing strategies and created ads using Microsoft Word and Photoshop to attract clients

Dental Assistant | *M-Dental Group*   2017
- Provided chair-side assistance to dentist and assisted scheduling patients using Dentrix
- Correctly prepared instrument trays prior to dental procedures, sterilized instruments, and assisted with laboratory duties between seeing patients to maximize work efficiency and reduce the waiting time for scheduled patients
- Applied knowledge and instructed patients on the importance of postoperative and general oral health care

EDUCATION

University Of California, Riverside | *Bachelor of Science, Biology*

LearningFuze | *Accelerated Web Development Program*
800+ hours of daily programming in a simulated work environment under the guidance of senior developers
